

Mahonia aquifolium, named by Lewis and Clark on their epic journey to the Pacific, is the Oregon state flower and our vineyard's namesake. Also called "Oregon grape" because of its blue berries, this northwest native and our winegrapes both thrive in the unique habitat of our site in the Willamette Valley foothills. This limited bottling is made with LIVE Certified Grapes grown sustainably in our family-owned vineyard. We generate solar power, use locally produced biodiesel and support many community programs, especially those benefitting children and the environment.
